Section		Subject	Title Search and Seizure

Lockers and desks are the property of LA Delta Community College campuses and are loaned to students for the purpose attaining an education. As the property of the College, they are subject to search for contraband at any time upon the reasonable belief of the Campus Police that said lockers and desks may contain material that is not allowed on the College campus. Having a toolbox and operating a motor vehicle on campus are privileges granted to students. The granting of these privileges is conditioned upon the agreement that these articles may be searched by Campus Police if the student is suspected of having contraband materials such as weapons, illegal substances or drugs, alcoholic beverages, or other similar material. Local law enforcement authorities may be included in this process if Campus Police determines a need for such involvement. Other searches of persons or property may be conducted in accordance with State Law.
